EXPERIENCE

DEVELOPER

DKB-Service GmbH, Berlin June.2023–today

Develop new features with Oracle Apex and SQL.
Handling internal data requests

SOFTWARE/AUTOMATION ANALYST

ACCENTURE GmbH, Dresden Dec.2021–May 2023

Develop new Features and maintain Code in DevOps environment. Take care of CI/CD and release management

QUALITY MANAGER

ARWE CarRental, Berlin Jan 2016 - May 2020

Implement quality specifications set by the client by evaluating staff appraisals and work processes as well as monitoring work performance.
Development of given standards and ways to implement them.

TEAM LEADER

ARWE CarRental, Berlin Jun 2008 - Dec 2015

Responsible for the smooth running of operations to ensure that contracts were fulfilled on time. I also had a duty of care for the vehicles in the car rental area. As I was entrusted with team leadership, I also acquired strong team skills at the same time. Including onboarding, training and continuous team development.

ABOUT ME

I am a full stack web developer with a background in food-industry and automotive service. Love to code and enjoy tackling interesting problems in frontend and backend with a team of like minded people.
